Опис

Goal: to build career as a Python/Backend developer and work on diverse projects that will help me to

boost my professional skills, gain expirience and learn something new every day.

Language: Python.

Basic knowledge of JavaScript.

Work experience with:

- Django, RoR
- HTML, CSS, LESS
- SQL, PostgreSQL
- Git, Gitbash
- Experience with UnitTest, PyTest
- Experience with API, Postman
- Bootstrap
- PyCharm, VSCode
- Windows/Linux.

GitHub projects: online-store
website and mini-game on Python
(with OOP knowledge).

English - Intermediate.

Projects I worked on as a freelancer:
- front/backend for web aplications
- front/backend for online sites/stores
- Telegram bots on Python
- mini-game on Python
- parsers on Python
