REMOTE TELECOMMUTE .NET DEVELOPER, 120 000 ГРН.

8 жовтня Місто: Київ

Вік: 46 років
Режим роботи: віддалена робота
Категорії: IT, WEB фахівці

✔ Перебуваю в шлюбі ✔ Є діти ✔ Готовий до відряджень

Досвід роботи

Developer

Назву компанії приховано (IT),
03.2026 – По теперішній час (8 місяців)

Обов'язки:

Projects: Agentic Coding Projects.

Responsibilities: Teaching AI to be More Helpful, Coding Tasks with Agentic Tool Uses, Evaluating Programming Best Practices, Evaluating generated code, explanations, tool-based work and data-analysis tasks. Performed comparison of model responses for code correctness, UI/UX quality, analysed agent behaviour to identify error patterns, edge cases, and failure modes.

Reviewed prompts and model outputs involving data analysis, visualization. Contributed high-quality human feedback, improved training data quality and supported the development of more reliable AI coding assistants.

Added a feature to Agentic coding projects, fixed bugs, refactored patterns, tightened checks, wrote problem statements.

Had a provided custom model generate a solution to the problem locally using OpenCode, assessed the solution to see if it fully satisfies the problem's requirements, ran the tests on the Coding Agent's Solution, provided the Docker build context as a ZIP file containing a Dockerfile and other additional files needed to build the container, dockerized the codebase, built and run a container for a small Node.js todo-list app, created Dockerfiles, built the image to ran a container.

Tools: C#, SQL, JavaScript, JSON, Azure, Docker, HTML/CSS, GitHub Copilot, ChatGPT, SQL, PostgreSQL, Claude Code, NUnit.

Developer

Deloitte (IT),
09.2024 – 02.2026 (1 рік 5 місяців)

Обов'язки:

Project: BHSMS Health Services Management System. BHSMS is designed to submit health services data for client eligibility determination, data reporting, contract oversight, invoices, vouchers, budget adjustment, submit claims for payment to providers.

Responsibilities: Performed code migration of MVC solution to .Net Core code using service-oriented architecture (SOA) design and multi-tier architecture. Implemented data access layers using Entity Framework.

Reduced database query response time by 20% by optimizing stored procedures and indexes. Migrated legacy monolithic ASP.NET applications to containerized API services hosted on Azure App Service and AKS.

Developed event-driven background processing infrastructure using Azure Functions and Azure Service Bus queues. Deployed and managed applications on Azure App Service as fully managed platform for hosting traditional web apps and APIs using code or containers and Azure Container Apps as server less container platform optimized for API services, event-driven applications.

Designed scalable back-end Web API services alongside highly interactive, responsive front-ends using React and Redux.

Developed and maintained APIs using REST and JSON, XML-based approaches. Designed databases and optimize queries and stored procedures in MS SQL. Used SignalR as open-source library that lets developers to add real-time web functionality to applications, allowing servers to instantly push data to connected clients.

Tools: C#, .NET, .NET Core, ASP.NET MVC, Azure, Docker, CI/CD pipelines, DevOps, Azure Service Bus, AI Search, Azure SQL Database, Azure Cosmos DB, Azure DevOps YAML pipelines, Azure Repos, Kubernetes, React, JavaScript, TypeScript, MSSQL, PostgreSQL, LINQ, Entity Framework (EF Core), RESTful API, Claude Code, GitHub Copilot.

Remote .Net Developer

KPMG (IT),

04.2023 – 07.2024 (1 рік 2 місяці)

Обов'язки:

Project: Asset Management Platform (AMP). AMP is leading-edge technology that can help to reimagine cost-effective ways to execute tax compliance and planning. Informed by extensive, in-depth tax knowledge of asset management entities, Regulated Investments Companies, Real Estate Investment Trusts, the AMP enables efficiency and transparency and helps normalize big data, maintain a complete repository, identify critical assets and analyze the impact of incidents. AMP Tax accounting app helps to evaluate overall tax position, identify tax deductions or income deferrals, and recommend the appropriate accounting methods.

Responsibilities: Developed Back end code, front end code, MVC architecture, .Net Core application, Web API using service-oriented architecture (SOA) design and multi-tier architecture.

Added new functionalities to legacy code. Performed code migration of Business, Common, DAL projects to .Net Core code, migration of WCF services to Web API. Optimized queries, made SQL performance tuning. Optimized a real-time financial reporting backend by implementing asynchronous database calls via Entity Framework Core and async/await. Configured automated build and deployment pipelines using Azure DevOps YAML pipelines with PowerShell. Architected and developed single-page applications (SPAs) utilizing React, Hooks, and Redux for predictable state management, consuming complex payloads from secure ASP.NET Core Web APIs.

Tools: C#.Net, .Net Core, ASP.NET, MVC, Web API, RESTful, WCF, React, JavaScript, .NET Framework, MSSQL, PostgreSQL, LINQ, Entity Framework, HTML, CSS, Azure, CI/CD pipelines, Azure Service Bus, Azure Key Vault, AI Search, Azure SQL Database, Azure Cosmos DB, Azure DevOps, YAML, Azure Repos, Kubernetes, Git.

Remote .Net Developer

InfoEd (IT),

10.2019 – 03.2023 (3 роки 4 місяці)

Обов'язки:

The infoedglobal.com Scientific Research Software Solution helps to realize cost savings, track grants and funding opportunities, manage data, manage administrative processes, assure the ethical conduct of research, monitor institutional royalty requirements, monitor technology transfer consulting, collect post-publication assets, consolidate information in a single location that facilitates collaboration between all the research personnel supporting trials.

Responsibilities: Developed Back end code, front end code, Dynamic Ad hoc reports, dynamic data-driven and responsive to user inputs forms, ASP.NET MVC application, Web Services using service-oriented architecture (SOA) design, multi-tier applications for the web, taking part in all phases of the Software Development Lifecycle including analysis, design, coding, testing and documentation. Designed and built reusable UI component libraries using React, TypeScript, ensuring design consistency and reducing overall front-end development time across the team.

Tools: ASP.NET, MVC, C#.NET, VB.NET, .NET Core, HTML, CSS, .NET Framework, Visual Studio, Web API, RESTful, VBScript, React, JavaScript, LINQ, SQL Server, LINQ, Entity Framework (EF Core), MySQL, MSMQ, Azure, Docker, CI/CD pipelines, Azure Service Bus, Azure Key Vault, AI Search, Azure SQL Database, Azure Cosmos DB, Azure DevOps, Oracle, PL/SQL, Git.

Remote .Net Developer

OpenMetering (Software),

04.2019 – 10.2019 (5 місяців)

Обов'язки:

Project: openmetering.se. Accounting and billing application for energy providers and consumers to get electricity readings from customers, calculate bills, notify users about reading gaps, calculate missing readings (using Linear interpolation), send bills, create accounting reports.

Responsibilities: Database development, Back end code. Web API development. Developed .Net Core application, ASP.NET MVC application, implemented MVC pattern, optimized queries, took part in unit testing and integration testing.

Tools: ASP.NET, MVC, Web API, C#.NET, .NET Core, HTML, CSS, Kendo, .NET Framework, Visual Studio, WCF, REST, Web API, XML, React, JavaScript, jQuery, SQL Server, T-SQL, LINQ, Entity Framework (EF Core), LINQ, Azure, NUnit, Git, Scrum/Agile.

Remote .Net developer

National Education Tech, Canada (Software),

08.2018 – 04.2019 (8 місяців)

Обов'язки:

Project: Boomerang. Parental control application for Android and iOS mobile devices seboomerang.com, app.useboomerang.com.

Responsibilities: Database development, Business Logic Layer and Data Access Layers coding, Web API development for mobile devices. Developed .Net Core application, ASP.NET MVC application and WinForms app, created code for Windows services, optimized queries, took part in unit testing and integration testing. Tools: WinForms, Windows services, ASP.NET, MVC, Web API, C#.NET, .NET Core, HTML5, CSS3, Bootstrap, Kendo, .NET Framework, Visual Studio 2017, WCF, REST, Web API, XML, JavaScript, jQuery, Angular, SQL Server, T-SQL, NoSQL, LINQ, AWS, Git, Scrum/Agile.

Developer

Info724

03.2017 – 07.2018 (1 рік 4 місяці)

Обов'язки:

Project: Nabco. Comcast warehouse desktop accounting tool. Created database, Business Logic Layer and Data Access Layers, Web API. Developed ASP.NET MVC application and ASP.NET Web Forms application, implemented MVC pattern.

Tools: ASP.NET, MVC, Web API, C#.NET, HTML5, CSS, Twitter Bootstrap, .NET Framework, Entity Framework, Visual Studio, WCF, REST, Web API, XML, JavaScript, jQuery, angular.js, knockout.js, AJAX, JSON, SQL Server, T-SQL, SSRS, LINQ, Oracle, WinForms, WPF, Kendo, Git, Scrum/Agile

DEVELOPER

Norsync

02.2014 – 03.2017 (3 роки)

Обов'язки:

Projects: Towing Assistance System, NIAM Diagramming. Created General Ledger, Timesheets, Journal, Dispatcher, Statistics, Billing, Balance Sheets, Financial Statements, Turnover, Annual Report, Accounts Payable, Accounts Receivable, Cost Accounting Cash Flow, Liability screens and reports. Developed code for recording and reporting of financial transactions, including the origination of the transaction, its recognition, processing, summarization. Developed ASP.NET MVC application and ASP.NET Web Forms application, implemented MVC pattern. Developed WCF services, Implemented jQuery for client side. Implemented LINQ for querying, sorting, filtering complex objects. Implemented AJAX functionalities for partial page rendering. Optimized queries to reduce network traffic. Involved in unit testing, module testing and integration testing. Tools: ASP.NET, MVC, Web API, C#.NET, HTML, CSS, Twitter Bootstrap, .NET Framework, Entity Framework, Visual Studio, WCF, REST, Web API, XML, JavaScript, jQuery, angular.js, AJAX, JSON, SQL Server, T-SQL, SSRS, LINQ, Oracle, WinForms, Kendo, TFS, Scrum/Agile.

DEVELOPER

KSF

05.2012 – 03.2014 (1 рік 9 місяців)

Обов'язки:

Project: AdMetrix for ComScore (NASDAQ: SCOR), USA. WinForms and ASP.NET MVC applications to parse web sites, search banners, download images, JavaScript, CSS, HTML code, collect links, create statistics, build reports, parse pages containing JavaScript, jQuery, expandable banners, cookies, Google ads, Arrow ads, Yellow Pages banners. Developed C# code, stored procedures, LINQ queries. Implemented multithreading and other concepts to improve performance. Tools: C#.NET, ASP.NET, MVC, HTML, .NET Framework 4, Entity Framework, Visual Studio 2010, XML, CSS, JavaScript, jQuery, SQL Server 2008, MSMQ, LINQ, TFS, AccuRev, WCF, RESTful, Scrum/Agile, Multithreading

Освіта

Kirovograd University

Спеціальність: Engineer

повна вища, 09.1990 – 06.1995 (4 роки 9 місяців)

, –

Знання мов

Англійська - Професійний (експерт), Українська - Професійний (експерт), Російська - Професійний (експерт)

Додаткова інформація

Знання комп'ютера, програм: SKILLS: C#.NET, VB.NET, .NET Framework, Visual Studio, Classic ASP, ASP.NET, MVC, Entity Framework, NHibernate, LINQ, HTML/HTML5, CSS, Bootstrap, PHP, JavaScript, jQuery, angular.js, XML, Web API, WCF, RESTful, Web Services, WPF, WinForms, SQL Server, T-SQL, Oracle, PL/SQL, SSRS, SSIS, MySQL, SVN, TFS, VSS, Git, Agile/Scrum.
