Опис

Anna Pankivska

Design Enginner

Address: Zamkovetska Street 20/1 Kyiv, Ukraine

Education

Master

Taras Shevchenko National University of Kyiv

Studying at the faculty of physics, department of astronomy

Graduating May 2020

Work Experience

From June 2019 to September 2019

Intern engineer at Fablab Fabricator

Since June 2020

Design engineer of company Additive Benchmark Vendor

Languages

Ukrainian native

Russian native

Czech pre-intermediate

English intermediate

Professional Skills

CAD programs: Fusion 360, Solid Works, Компас 3D

Used programs: Materialise Magics, Insight, Cura Ultimaker, Laser Work v6, HP 3d scan 5

Math skills: Math analysis, Linear algebra, Statistics

Personal Qualities

Responsible, active, inquisitive, sociable

I love to learn new things and develop professionally

About

I am a design engineer in a company that deals with additive technologies.
At this stage, the responsibilities include:
- modeling prototypes or individual parts of products in different industries (I work in the Solid Works program);
- preparation of 3D model files for printing on a 3D printer (I work in the Materialise Magics program);
- loading 3D model files for printing in a 3D printer (I work in Insight and Control Center programs).
I want to develop in 3D modeling and study different CAD and CAM programs and implement my knowledge in different areas of the industry.

I live in Kiev, Ukraine. I am ready to work remotely.
