Опис

A small remark: the city column is mandatory (but there is no possibility to enter cities outside of Ukraine), so the information is incorrect

Right now I live in Brest, but I'm ready torelocate to any city at Ukraine

Skype: parhocv

Linkedin: Vlad Parkhots

Objective

Applying for a position of a Junior QA Engineer

Summary

I completed Software testing course at the IT Academy.

I know testing theory and also have basic knowledge about SQL and testing API services. Right now, I'm working on improving my skills.

Purposeful and easy to learn, not afraid of difficulties. I can maintain business and professional contacts. I love and aim to learn new things.

Skills

- Experience in writing test documentation (check lists, test cases, TRR, test plan, bug report)
- Experience in using test case management tools: Qase, TestRail
- Experience in using bug tracking system Jira
- Basic knowledge of SQL
- Basic knowledge of HTML
- Basic knowledge of client server architecture
- Basic knowledge of testing API services (SoapUI, Postman) – (I continue studying)
- Knowledge of testing theory, methodologies and techniques

English Proficiency: Intermediate (B1) - (I continue studying)

Work experience

08.2020 – 11.2020 – Trainee, Educational Center for Programming and High Tech
