Advanced

Education

Institution:

KhNURE (Kharkiv's national University of radioelectronics), Ukraine

Date(s) Attended:

September 2002 - June 2008

Qualification(s):

master

Major Subject(s):

Programming C++,C#,Java,Cryptography

Professional Experience

Company:

Globallogic

Duration:

Jan 2021 - Sep 2023

Role:

Team/Tech lead

Project Description:

Creating new features and extend current functionality for Financial project

Responsibilities:

Team lead

Technologies:

.NET, Oracle, Win Forms, Web Api, JavaScript

Company:

Epam

Duration:

Oct 2019 - Jan 2021

Role:

Lead

Project:

WMS

Responsibilities:

Team\Tech lead

Technologies:

.NET, ASP NET, ASP NET MVC, HTML, CSS, JavaScript, SQL Server

Company:

Luxsoft

Duration:

Jan 2019 - Sep 2019

Role:

Lead

Project:

Ragnarok

Responsibilities:

Team\Tech lead

Technologies:

.NET, WPF, WCF, HTML, CSS, JavaScript, MongoDB, Erlang, RabbitMQ

Company:

Globallogic

Duration:

Jul 2016 – Jan 2019

Role:

Microsoft Dynamics CRM

Project Description:

Creating new features and extend current functionality for Microsoft Dynamics CRM project
• Plugins development
• Extend CRM Core

Responsibilities:

Team lead

Technologies:

.NET, ADO.NET, ASP NET MVC, HTML, CSS, JavaScript, ExtJS, TypeScript, MSSQL, ReactJS

Company:

Plarium

Duration:

Oct 2015 - Jul 2016 (9 months)

Role:

Business intelligence analysis tools

Project Description:

Creating and supporting REST API services.
• Deployed continuous integration system using Teamcity.
• Implemented REST web services using ASP Net Web Api 2.0
• Designed database schemas, creating and optimizing SQL queries.
• Code refactoring.
• Solution Architect

Responsibilities:

Senior Software Developer

Technologies:

Net, C#, MSSQL, Teamcity, Git, WCF services

Company:

Team international

Duration:

May 2013 - Nov 2015 (over 2 years)

Role:

Visma Retail Software

Project Description:

Provide of tailor-made solutions and services for retail chains and businesses in the Nordic region. Visma Retail makes it easier and more enjoyable for customers to shop and at same time make retailers experience better results, become more competitive and increase their efficiency, with solutions and services for both front office and back office.
Responsibilities:
• Architecture development
• Implementing new functionality
• Discussions
• Fixing issues

Responsibilities:

Tech Lead, Senior Software Engineer

Technologies:

C#, Asp.Net MVC 4, Asp.Net MVC 4 Web Api, EntityFramework, WPF, MSSQL database, WCF services, AngularJS

Company:

FaceUpGaming

Duration:

Jul 2012 - Jun 2013 (11 months)

Role:

Ultimate social gaming network

Project Description:

Description: Developing the internet first Reality Gaming Social Network. We will take Internet Gaming to the next level by

incorporating proprietary technologies that will provide users with streaming video, audio and messaging capabilities and by enhancing both the users experience and the gaming affect.

Responsibilities:

Chief Technology Officer, Team Lead
• Architecture development
• Implementing new functionality
• Discussion with candidates
• Discussion with the customer
• Estimate and requirements
• Software development
• Support(24h)
• Fixing issues

Technologies:

C#,C++, Asp.Net MVC 3.0, Asp.Net Web Forms, EntityFramework, MSSQL, MySQL, JavaScript, Flash

Company:

DAXX

Duration:

Jun 2011 - Jul 2012 (about 1 year)

Role:

CRM Software

Project Description:

Develop CRM system for marketing automation, automating various workflow processes such as tasks, calendars and alerts, and giving managers the ability to track performance and productivity based on information logged within the system.

Responsibilities:

Senior Software Engineer
• Implementing new functionality
• Discussion
• Software development
• Fixing issues

Technologies:

Silverlight, WPF, ADO NET, C#, T-SQL, ORM LLBL Gen

Company:

MWDN

Duration:

Apr 2009 - Apr 2011 (about 2 years)

Role:

HL7 Report tool , McKesson Migration Tool

Project Description:

Tool with ability to do:
• Parse data from txt file and populate DB table for preview parsed data and continue work.
• Generate HL7 message from parsed data in DB table
• Send by tcp all generated HL7 messages

McKesson Migration Tool
The "Migration Engine" enables seamless migration of DICOM studies between PACS systems. "Migration Engine" supports 2 types of data sources:
• DICOM Q/R mode – query to the legacy PACS system
• Direct mode – direct access to the legacy spinning disk for rapid migration

The data migration includes the following processes:
• Find DICOM files (discovery and collect the data that are to be migrated);
• Retrieve DICOM files from source system;
• Clean the studies that have errors (this operation removes errors in legacy data and improves linkage of images to reports in the migrated data);
• Export the cleaned studies to target PACS system;
• Validate the pushed studies.

Responsibilities:

Software Developer
• Implementing new functionality
• Discussion
• Software development
• Fixing issues

Technologies:

Win API, ASP NET Web Forms , ADO NET, C#, T-SQL

Company:

Devart

Duration:

Jul 2007 - Apr 2009 (almost 2 years)

Role:

Schema Modeler, SqlDirect

Project Description:

Tool for create (using design mode) object relational model which based on table relational model and generating c#\vb source code.
Role: Implement TreeView presentation and functional (get info from DB, ability to set view mode and other), implement wizard presentation part and functional(C#, WinForms, ADO).

Responsibilities:

Software developer
• Discussion
• Software development
• Fixing issues

Technologies:

WinForms ,ADO NET, C#, T-SQL
