<https://gitlab.com/toradora477> A passionate programmer and ambitious problem solver with experience of creating logical

and innovative solutions to complex problems. Have a keep interest in technology, mobile applications and UX. I have

experience and equally good skills in both front and back end development. I've been working with JavaScript programming

language and related technologies such as React.js framework or Express.js language for the server-side development. At

the moment, I am in search of cooperation with an experienced IT company as a Full Stack developer. My contacts: -
