Опис

I am a beginner C# developer and want to do an internship at your company to start my way as a C# developer. Successfully graduated "It Step" academy where I studied for 2.5 years. I have practical experience with .net MAUI, WPF, gRPC, sqlite, and independently created a small computer control application using these technologies, as well as a small website for the practice of ASP.net. I want to grow in software development and maybe try to develop mobile applications.

Skills:

- C#
- OOP
- SQL & Entity Framework
- Wpf & WinForms
- JS, HTML & Css (basic)
- Asp.Net Mvc
- gRPC, Rest
- Git (basic)

My projects:

- RemControl - small pc remote control system
  - Written in C#, and used such technologies: .net MAUI, wpf, gRPC, sqlite, entity framework.
  - github.com/V1aR0s/RemotePcControl_GraduationProject
- Site bestiary - site with articles about mythology
  - Written in C#, and used such technologies: .Asp.Ne, MVC, Js, HTML, CSS, entity framework.
  - github.com/V1aR0s/BestiarySiteAsp
