Опис

QA Engineer

Name: Mykhailo Sapronov

Location: Ukraine, Kyiv

Summary of Qualifications

I have almost 3 years in IT industry as a Software QA Engineer. As a Software Quality Assurance Engineer, I have been working on long- term projects as well as on small assignments. I have carried out test planning, test design, software testing. I have experience in testing web application with big functionality with Scrum methodology.

Currently my responsibilities as a Software QA Engineer are writing test cases, testing web-based applications, performing smoke, regression, UI, API, Data Base, confirmation, exploratory testing, reporting, tracking defects and analyzing incidents, supporting developers with steps to reproduce and a test data for customers' issues. Also, I am taking part in Retrospective, Demo, Grooming, UAT sessions.

I am open-minded, result-oriented, and self-motivated. I have good soft

and interpersonal skills.
