Досвід роботи

CO-FOUNDER, SOLE FRONT-END DEVELOPER

GRONA.TECH outsource IT company (IT),
03.2023 – 07.2023 (4 місяці)

Обов'язки:

Responsibilities:

- Develop, and maintain the user interface and user experience of the web application
- My role demanded a strong command of front-end technologies such as React, Next.js, HTML, SASS, JavaScript, TypeSkript and other related technologies
- Implementation of the front-end architecture of the web applications, ensuring scalability, maintainability, and reusability of code components.
- Collaborating closely with the designer, and back-end developer, to integrate front-end components with the overall application architecture.
- Implementing responsive designs to ensure optimal performance across different devices and screen sizes.
- Optimizing front-end code and assets to enhance website performance and load times.
- Ensuring cross-browser compatibility and addressing any compatibility issues that arise.
- Participating actively in client meetings to gather requirements and provide technical insights from a front-end perspective.
- Translating design wireframes and mockups into functional, interactive web pages.
- Debugging and fixing bugs
- Staying updated with the latest front-end development trends, tools, and frameworks.
- Continuously seeking opportunities to enhance the user experience and improve the front-end development process.
- Participating in strategic planning and decision-making processes to shape the short and long-term direction and growth of the company.

- Performing different tasks not related to the Front End Development

JUNIOR FRONT-END DEVELOPER

INFOPOLUS (IT),
08.2021 – 12.2021 (3 місяці)

Обов'язки:

Responsibilities:

- Performing various front-end tasks using specified technologies
- Debugging and fixing bugs
- Creating dynamic graphs using a specific library

JUNIOR FRONT-END DEVELOPER

ClassTag, Inc. (IT),

01.2020 – 12.2022 (2 роки 10 місяців)

Обов'язки:

Responsibilities:

- Performing various front-end tasks using specified technologies
- Debugging and fixing bugs
- Creating, updating, and replacing components in Storybook (a front-end workshop for building UI components and pages in isolation)
- Updating different components and pages to match new designs and mechanics
- Collaborating with designers and back-end developers to ensure the smooth implementation of new features
- Participating in code reviews and contributing to the development of best practices within the team
- Supporting junior team members in their development efforts
- Successfully refactored multiple components from CoffeeScript to JavaScript, as well as from class-based to functional components, resulting in improved code maintainability and increased performance.
