Опис

Overview.

I'm Junior Python Developer, with skills in working with HTML, CSS, JavaScript and such frameworks as: Django, React.js. I'm a quick learner and willing to work closely with the team/customers to create effective, scalable and user-friendly solutions that solve real-world problems. Let's work together to bring your ideas to life!

Work Experience.
Freelance
Work on Freelance
Freelance

Website parsing
Development of telegram bots (aiogram lib.)
Adaptive layout of the site according to the model
Website development on such frameworks like Django and React.js
Testing and QA
Sep 2022 - Present

Projects.
Following projects showcases my skills and experience through real-world examples of my work. Each project is briefly described with links to code repositories. It reflects my ability to solve complex problems, work with different technologies, and manage projects effectively.
