- Good knowledge of Android UI design principles, patterns,

and best practices

Obiective:

Highly motivated Android Developer with a background in Computer Science, understanding of Object Oriented Design and Programming concepts, and a passion for creating innovative mobile communication products. Seeking to contribute my skills and experience to a dynamic Development team in developing next- generation Android apps. Eager to collaborate with cross-functional teams and advance my expertise in Android application development

Experience:

Junior java developer in EPAM, work with Spring Framework on medical project for 4 month in 2020.

Android App Developer

- Collaborated with a small team to develop apps for mobile
some arcades games.
- Worked closely with app developers, web product developers,
and server-side infrastructure teams to ensure seamless
integration.
- Implemented UI layouts, widgets, and internationalization
features to enhance user experience.
- Developed background operations for efficient data
processing and minimized user disruptions.
- Utilized Java and Android development tools to write clean,
maintainable code.
- Utilized Git for version control, ensuring efficient
collaboration and code management.
- Diagnosed and resolved app crashes and unexpected
behavior through effective debugging techniques.
- Contributed to the development of data persistence strategies for maintaining app state.

Projects:

- [Desert dynasty] Developed an Android app that
incorporated real-time data synchronization between mobile devices and a web-based platform.
- [Benchmark] Designed and implemented a UI layout overhaul, resulting in a 30% increase in user engagement.

Certifications:

- Web Academy (2019- 2020) - Front-end
- FoxMinded(2020) -Full Java Course with personal mentor - Android App Development Certification (2022-2023)
