EXPERIENCE

Uweb.agency

About: This is a web studio that ranks among the top 3 in Odessa. It specializes in creating progressive websites for businesses. I was fortunate to work with them as a freelance designer.

My responsibilities: Redesigning the landing page for a company specializing in car repairs. Specifically, I updated the content on the feed and streamlined the user journey. The page should be user-friendly and aesthetically pleasing. You can find the link to the work here. uwebagency.co.uk/car-landing-2.html

Alterra School

About: This is a network of democratic schools for grades 0-11. A licensed private full-day school, it is currently my own entrepreneurial venture.

My responsibilities: Posters, landing pages, e-commerce – I have completed around 8 projects for Alterra School. I'm sharing the link to the latest project, which is the mobile version. www.alterraschool.space/all-school
