SUMMARY

Beginner 3D specialist, 1,5+ years of experience in Blender. I have experience working with clients, for example creating facades for a furniture company catalog. I strive for the ability to recreate any concept into an attractive visualization or animation.

EDUCATION

Ukrainian State University of Science and Technologies

Bachelor of Science: Computer Sciences **Ukraine, Dnipro** September,2020 – June,2024

Lyceum No. 142 by Pierre de Coubertin

High School Diploma Ukraine, Dnipro September,2009 – June,2020

SKILLS

3D modeling: Blender, 3DsMax

Texturing: Substance Painter

I also use and master the program Risom UV, Marmoset Toolbag 4. Drawing with hands and on a tablet.

English: Pre-Intermediate

EXPERIENCE

- In July 2023, The Kroot company responded to my resume with an offer to undergo a test selection, which consisted of 3 stages, each stage lasting a week.

At the first stage there were about 150 participants. The task required creating a still from the film based on the proposed

references. By the second stage there were about 80 participants. The task of the second stage is to texture the Ford Mustang car using it to create a cinematic frame. In the final, stage 3, the participants were reduced to 23. The final task was to create your own project. Theme "Island".

As a result, I became one of the 3 finalists, having gone through all the stages.
