

JUNIOR FRONT-END DEVELOPER / HTML CODER, 1 ГРН.

🔄 11 січня
2017

📍 Місто: [Київ](#)

Вік: 45 років

Режим роботи: повний робочий день

Категорії: IT, WEB фахівці

Досвід роботи

Self-employed

Self-employed

10.2012 – 09.2016 (3 роки 11 місяців)

Обов'язки: • Provided services for administration, installation, upgrade of OS and applications software to users
• Working remotely, I was helping to solve current problems. I was engaged in self-development, looking for promising areas in the IT-industry and chose the Front-end that I studied on GoIT course

Trade representative in Ukraine

Grand Ville Company

08.2011 – 09.2012 (1 рік 1 місяць)

Обов'язки: • Represented luxury European manufacturers of furniture, kitchen/bathroom equipment and materials

Marketing manager / System administrator

Showroom Franchesco

07.2007 – 06.2011 (3 роки 11 місяців)

Обов'язки: • Created and maintained a distributed computer network for two-tier architecture with access to data on the remote server over Remote Desktop Protocol, which provided secure storage of information outside of the office
• Responsible for market analysis and optimization of processes in procurement, warehousing, international and domestic logistics, leading to improved efficiency of placement of orders and 12% increase in revenue

Dealers manager / Sales manager / Technical support engineer

IA Company IBC

05.2004 – 06.2007 (3 роки 1 місяць)

Обов'язки: • Implemented application in Visual Basic that collected, processed and analyzed 200+ log files from the modem pools with, data of clients' updates of «LIGA:ZAKON» systems and proactively identified issues with daily updates. This helped to reduce the time of identifying and resolving client issues from 2 hours to 5 minutes
• Contributed to the creation of a sub-dealer network in the eastern regions of Ukraine to distribute the information-legal systems «LIGA:ZAKON». Acted as training liaison for the dealers teaching about software products, organized logistics between dealers and service centers in the regions

Teacher of computer science

Donetsk centre of technical art

09.2001 – 04.2004 (2 роки 7 місяців)

Обов'язки: • I taught students the basics computer skills, algorithms and programming in language Turbo Pascal 7.0
• I have prepared students for the writing competition projects organized by the Junior Academy of Sciences of Ukraine. One of the projects was a game, a learning program that was able to append their own code and modify the logic of the modules' behavior
