Position: System Analyst. SQL Developer (ORACLE 19, MS SQL Server 2019)

Project: Campaign Management System.

Tools: Oracle Developer, MS SSIS, MS Management Studio.

Database and ETL optimization.

Monitoring of the ETL processing on the daily base.

System workload analysis.

Create and maintain related documentations.

Crédit Agricole (France) **(fully remote**)

Position: ETL developer 03/01/2023 – 10/15/2023

Technologies used: Abinitio,ExpressIT.

Lufthansa

www.lufthansa.com/ (fully remote) **03/01/2022 – 02/01/2023**

Position: Operational DBA

Project: Lufthansa managed service.

Tools: TASM. Teradata tools and Viewpoint.

Manage data migration process.

Monitoring of the ETL processing on the daily base.

System workload analysis.

Create and maintain related documentations.

Allianz

www.allianz.cz/ (Prague, Czech Republic) (part-time, fully remote, fix price) **09/15/2021 – 03/01/2023**

Position: BI analyst - Oracle 19, MS Reporting Services 2019

Project: Oracle DWH support. Reporting support and development.

Reporting system migration from SAS reporting environment to the MS Reporting services.

Create project related documentation. (business analysis, architecture, technical specification)

Tools: MS Reporting Builder 2019, MS Visual Studio, PL/SQL Developer, MS SQL Server management studio.

WIZ-TEAM SA

www.wiz-team.com (Kyiv , Ukraine) (fully remote, fix price) 0**5/15/2021 –** 08/**31/2021**

Position: System architect, business analyst

Project: Visitor system DWH.

Create project related documentation. (business analysis, architecture, technical specification)

Technology : MySQL, ORACLE.

Tools: SQL Developer, Toad.

VTB Group.

www.vtb.ru (Moscow, Russia) (fully remote) 01/02/2021 – 02/01/2022

Position: System analyst.

Project: Data processes daily monitoring. DWH, ETL optimization.

Tools: TASM. Teradata tools and Viewpoint.

Monitoring of the ETL processing on the daily base.

System workload analysis.

Create and maintain related documentations.

TELE2 (Teradata).

www.tele2.ru (Moscow, Russia) (fully remote) 07/15/2020 – 12/18/2020

Position:.Technical lead of the Systems Analysis Group.

Project: Data processes daily monitoring. DWH, ETL optimization.

Tools: Azure DEVOPS. Teradata tools and Viewpoint.

Monitoring of the ETL processing on the daily base.

System workload analysis.

Create and maintain related documentations.

Unicredit Bank (Teradata).

www.unicredit.ro (Bucharest, Romania) 06/01/2020 – 07/01/2020

Position: BI technical lead.

Project: Pre upgrade assessment Teradata DWH support. (Teradata 15.10 to 16.20)

Post upgrade optimization. (Teradata 15.10 to 16.20)

Position: Data analyst. Teradata SME.

Tools: BTEQ, SQL Assistant, Viewpoint.

DWH and BI solution post upgrade support, daily data flow tasks monitoring.

ETL tasks optimization.

Create and maintain related documentations.

Vodafone (IBM).

www.vodafone.cz (Prague)

Position: DWH technical lead.Data processing analyst. 01/01/2020 – 03/31/2020

Project: Teradata DWH support. (Teradata 16.20)

Create new BI extension for the current solution. New data flow analysis and development.

Data modelling

Contract position: Teradata SME. Data analyst. Teradata 16.20 SME.

Tools: Teardata PT. Informatica 10.2, BTEQ, SQL Assistant.

Data modeling – SAP Power designer 16,5

DWH and BI solution support using daily data flow tasks monitoring.

ETL development and data flow tasks optimization.

Create and maintain related analytical documentations.

Sberbank EU.
