Описание

- I've been working as a front-end web developer for 2 years, and now seek a new challenge.
- I've worked in large development teams that have sharpened my technical skills, improved my communication, and made me understand what it takes to meet tight deadlines.
- My keen interest in programming and design helps me find creative solutions to technical challenges and develop visually appealing websites.
- At the age of 18, when I first wrote a single line of code, I had no idea how big this field was, since then I have been trying to expand my knowledge and gain new experiences.
