- Cooperative

LANGUAGES
English - Intermediate
Ukrainian - Native

PROJECT EXPERIENCE

- **E-VOLUNTEER** (https://e-volunteer.vercel.app/)
  Link to Repository (https://github.com/nadiakhoptiuk/e-volunteer)
  (FE: Next.js, Tailwind CSS. BE: DatoCMS)
  An adaptive bilingual electronic volunteer to help Ukrainian refugees in Estonia.
  I created the structure of admin panel, developed statically generated pages, search, categories section. I assigned the domain and configured the DNS records.
- **DNIPROAGRO** (https://flourishing-praline-f430ab.netlify.app/)

Link to Repository (https://github.com/nadiakhoptiuk/dniproagro)
(FE: Gatsby.js, Tailwind CSS. BE: Netlify CMS)
An adaptive multilingual landing page of the company "Dniproagro" with administrative panel. I created the structure of administrative panel, developed navbar, mobile menu, hero section with slider and tabs sections.

- **MARATHON FAQ** (https://gw-fe-marathon.netlify.app/)
  Link to Repository (https://github.com/GoWeb-Internship/gw-fe-marathon-project)
  (FE: Gatsby.js, Tailwind CSS. BE: Netlify CMS)
  An adaptive multilingual web app with administrative panel created to help for GOIT marathon participants. I created the structure of admin panel, developed header, mobile menu, added styles to accordions section. Also I implemented the creation of dynamic pages and a search on the site.

- **PHONEBOOK** (nadiakhoptiuk.github.io/goit-react-hw-08-phonebook/)
  Link to Repository (github.com/nadiakhoptiuk/goit-react-hw-08-phonebook)
  Frontend: React, Redux Toolkit, RTK Query, JS, HTML, CSS. Backend: Swagger. Libraries: axios, MUI. Webpack.
  Personal project.
  An adaptive web application with contacts list. It allows to save phone contacts to personal database, edit and delete them. User registration/authorization and database of contacts is implemented with Swagger. I improved my skills Redux Toolkit and RTK Query, applied new features such as theme switcher.

- **Kapu$ta Smart Finance** (https://nadiakhoptiuk.github.io/Kapusta-wallet/).
  Link to Repository: https://github.com/nadiakhoptiuk/Kapusta-wallet
  Presentation link: www.youtube.com/watch?t=654&v=mJNOog5U_i4&feature=youtu.be.
  Frontend: React, Redux, JS, HTML, CSS (SASS). Backend: Swagger.
  An adaptive website-wallet for managing personal finances.
  Role: Scrum Master.
  I performed the section of reports by categories, represented by a list of buttons with icons at the Report page. I worked with data from storage (backend response) and transformed it into the desired form and type. Also I used React-transition group for animation. As Scrum Master I prepared a project presentation.

- **Filmoteka** (app link: nadiakhoptiuk.github.io/filmoteka_project/).
  Link to Repository: github.com/nadiakhoptiuk/filmoteka_project.
  Presentation link: www.youtube.com/watch?v=m1Vv00u-r5c&t=938s.
  Simple Page Application. Frontend: HTML, CSS (SASS), JS. Backend: MovieDB, Firebase.
  Libraries: axios, Basic Lightbox, TUI Pagination, JS Loading Overlay. Parsel. Webp images as alternative.
  An adaptive website for searching movies and saving them to own user lists.
  Role: Team Leader.
  I implemented user registration/authorization through the Firebase, interaction with FB realtime DB, added functionality of changing form type. Also I provided performance and accessibility of page and performed other duties as Team Leader.

- **Ice-Cream** (app link: nadiakhoptiuk.github.io/ice-cream-project/).
  Link to Repository: github.com/nadiakhoptiuk/ice-cream-project.
  Parsel. HTML, CSS (SASS), JS.
  Libraries: Swiper, Simple Lightbox, Animate. Webp images as alternative).

  A responsive landing for reading various detailed information about ice-cream and with possibility to order it.**Role: Team Leader.**
  I made markup of footer, built project on Github, worked with branches, checked pull requests for errors, provided performance and accessibility of page.
- **Barbershop** (app link: nadiakhoptiuk.github.io/barbershop/).
  Link to Repository: github.com/nadiakhoptiuk/barbershop.
  HTML, CSS (SASS), JS. Library: Swiper.
  A barbershop landing page with a responsive layout. Personal project. I made the markup of the page and modal window with booking form, added swiper for hero section.
