### Описание

My main task as a web designer is to solve business problems by creating user-friendly interfaces.

During a 4-month web design course at SourceIT and IT Generation, I successfully completed 3 cases:

- interface design of a landing page for a foreign language course;
- Created the design for a mobile reading application;
- developed a concept design of interface for the multi-page website for a network of fitness centers.

Additionally, during a 4-month web design course at Shendrikov Education, I completed 2 cases:

- Redesigned a website for a driving school;
- Designed an interface for a concept E-commerce website for selling premium coffee.
