I am a dedicated Software Engineer with a proven track record in Front end / Back end / Full stack / Hybrid development, specializing in creating high-quality, modern web and mobile applications.

My expertise spans across various Front end technologies including JavaScript, TypeScript, Vue.js, TailwindCSS, Angular, AngularJS, HTML, CSS, etc with a strong emphasis on delivering exceptional user experiences.

Additionally, I have experience in Back-end development, working with Node.js, Elixir, Erlang, Phoenix, Ecto, PostgreSQL, which enables me to build robust, scalable server-side solutions.

Throughout my career, I have contributed to a wide range of projects from EU CRM systems to US advertising platforms, consistently meeting tight deadlines in agile environments. I am passionate about continuous learning and thrive in collaborative settings where I can both contribute my skills and support my team. My goal is to leverage my technical expertise and positive, team-oriented approach to drive innovation and success in every project.
