Опыт работы

front end developer

GBSFO (IT), Одесса
01.2019 – 07.2024 (5 лет 5 месяцев)

Обязанности:

I have mentored and led junior developers fostering their professional growth and ensuring adherence to best practices.

The key role in the development project of a web application adapted for the restaurant industry, including the implementation of loyalty programs. Coordinate the application development process to ensure seamless deployment.

Developed a web application builder that quickly assembles new web applications based on configurations provided by users. This allows for selecting desired pages, the order of blocks on a page, color themes, integrating various modules, and choosing payment methods, with subsequent automatic delivery via CI/CD functionality.

Creating a delivery logistics module using Maps JavaScript API to determine precise delivery zones and corresponding tariff structures.

Development of a reservation and table ordering system for managing the restaurant business.

Utilizing Google Analytics for seamless integration of analytics and user behaviour tracking.
