Опыт работы

Senior Web Developer

Devart (IT), Харьков
04.2020 – 07.2026 (6 лет 2 месяца)

Обязанности:

- Developed and enhanced the TMetric time-tracking application using Angular, implementing new features, UI redesigns, and reusable components.

- Developed, redesigned, and maintained the corporate website

tmetric.com/ using Umbraco CMS, building responsive landing pages, improving page load performance, and implementing SEO best practices.

- Maintained and redesigned the corporate blog blog.tmetric.com/ built on Ghost CMS, enhancing the blog theme, user experience, and content presentation.

- Collaborated closely with marketing, design, and technical writing teams to deliver customer-facing web solutions and support business goals.

- Coordinated development activities, defined technical requirements, and contributed to sprint planning.

Front-end Developer, Team Lead, Markup Tech Lead

Dashdevs LLC (IT), Харьков
01.2018 – 04.2020 (2 года 3 месяца)

Обязанности:

- Developed modern web applications and websites using Angular and static site generators.

- Collaborated directly with clients to gather requirements and define technical solutions aligned with business goals.

- Estimated project scope, timelines, and development effort.

- Coordinated development activities, defined technical requirements, and contributed to sprint planning.

- Improved performance, responsiveness, and user experience of existing web products.

- Worked closely with backend developers to troubleshoot issues and deliver end-to-end solutions.

Co-founder, Team Lead, Front-end Developer

Perfect Code, LLC (IT), Харьков
01.2015 – 01.2018 (3 года)

Обязанности:

- Co-founded and scaled a web development agency, combining technical leadership with business development responsibilities.

- Led the design and implementation of modern, responsive websites and e-commerce solutions.

- Directed website modernization initiatives, including UX improvements, performance optimization, and mobile adaptation.

- Worked closely with backend developers to deliver reliable end-to-end web solutions.

- Managed client relationships, project estimation, and technical planning.

- Generated new business opportunities through freelance platforms and direct customer acquisition.

Front-end Developer

i3Design-UKRAINE, i3DESIGN Co., Ltd.(Japan) (IT), Харьков

09.2013 – 01.2015 (1 год 4 месяца)

Обязанности:

- Delivered high-quality frontend solutions for globally recognized brands, including Panasonic, Sony, Sanrio, and Keio Corporation.

- Developed responsive, cross-browser web applications and websites with a strong focus on usability and performance.

- Led website optimization and mobile adaptation initiatives to improve user experience across devices.

- Contributed to e-commerce and digital service platforms, including mobile-first implementations.

- Collaborated with distributed international teams and backend engineers to ensure successful project delivery.

Markup Developer

W3 Ukraine (IT), Харьков

09.2007 – 08.2013 (5 лет 11 месяцев)

Обязанности:

- Delivered 600+ web development projects and created over 2,000 production-ready pages for global clients.

- Demonstrated continuous professional growth, progressing from Junior to Senior Web Developer.

- Maintained high standards of code quality, responsiveness, and cross-browser compatibility across a large portfolio of projects.

- Contributed to workflow optimization and process improvement initiatives as part of the company's engineering working group.
