## Описание вакансии

We are looking for a proactive and motivated Automation QA Engineer with a result-oriented mindset, who can strengthen our team.

We are the result oriented company who values smart, motivated result-driven professionals.

We have an existing suite of products in the US marketplace that are growing at a fantastic pace.

### Top Reasons to Work with Us

- A fantastic and passionate engineering team that is developing an amazing product
- Work for fast-growing and profitable company
- Remote work with a flexible schedule

### What's In It for You

- Solve challenging problems, grow your experience and learn new skills
- Competitive compensation and very significant performance bonus
- We offer stock options

As an AQA Engineer you will be responsible for:

- Development of auto tests
- Scripts execution
- Results analysis
- Defects reporting

### What You Need for this Position

- 3+ years of experience as an AQA Engineer.
- Great knowledge of Java, Appium.
- Advanced skills of OOP, WebDriver, JUnit, TestNG.
- Understanding test automation frameworks structure.
- Knowledge of Git or other version control tools.
- Good knowledge of CI/CD process.
- Experience in testing web services.

It Could be a Plus if you have

- Knowledge of MS TFS, Jenkins
- Experience with iOS and Android apps

About AutoMobile Technologies, Inc.

Our Company is the leading provider of mobile solutions for automotive repair companies as well as general mobile field force management. We are processing about 40,000 repairs a day across the United States, Canada, and Latin America and we are looking to expand our presence in the European Union.
