- English level: at least Intermediate;
- Previous experience in Android, iOS, or Flutter application development;
- Strong focus on code quality and ability to write clean code;
- Curiosity and constant willingness to dig to the roots of the matter.

## What will you do?

- You will implement applications from scratch, support them and add new features;
- Deliver Flutter/Dart applications with a focus on quality.

## Why Solid Software?

- One of the biggest Flutter expertise in Ukraine and in the world;
- Flexible schedule;
- MacBook Pro and great tech;
- Decent compensation;
- Work with trendy and sometimes experimental technologies;
- Lack of bureaucracy;
- Compensation of sports activities;
- Compensation of COVID-19 test;
- Modern and comfortable workplace (or remote opportunity).

## Professional growth:

- Internal career path program: from Developer to Architect. It consists of 11 knowledge areas, books, training sessions, and work activities;
- Mentorship program;
- Corporate library with best programming books (+ an ability to order a particular book if we miss it);
- Ability to work on challenging projects with awesome clients;
- Professional and constant feedback;
- Opportunity to work on projects with different Flutter directions (web, mobile, tablet, watch, desktop) in the future.

**Team & Fun:**
