📍 Львов,

Компания: Smart Pelican Technologies Group, LLC

Рубрики: [IT, WEB специалисты](#)

Пожелания к сотруднику

Образование: полное высшее
Опыт работы: от года
График работы: полный рабочий день

Описание вакансии

Help create great software. Learn from experts. Develop your skills.

You've just earned your engineering wings and are eager to gain more experience. At Smart Pelican, we'll help you take to the skies as Junior Software Engineer. You'll use your fresh programming knowledge to write and debug code, and help create smartphone apps, PC software, and other custom solutions. Join our team and get ready to start developing your engineering chops.

Responsibilities:

- Developing and maintaining applications
- Applying waterfall or iterative agile development techniques
- Working with teams to ensure quality development of applications
- Participating in the requirements gathering process and problem solving
- Helping with application design and spec creation
- Documenting work and team meetings to share knowledge

Desired skillset and experience:

- You write code and have an eye for detail
- You're familiar with the software development environment
- You can analyze information and solve problems, with varying degrees of needed help
- Experience with PHP/Node, TypeScript/JavaScript, SQL/NoSQL, HTML, CSS, and algorithms
- Helpful to have JavaScript frameworks, databases, and Subversion and/or GIT version control systems experience

Personal qualities:

- You love writing code to create software solutions
- You're comfortable working on multiple projects, both new and existing
- You work well on your own and with a team
- You listen well and welcome criticism
- You voice your concerns and aren't afraid to provide input

Education and background:

- You have at least a bachelor's degree in Computer Science, Mathematics, or Engineering, or you have equivalent work experience
- You have a proven track record in software development, with completed projects to showcase your experience

We offer the following benefits:

- Challenging, often cutting edge projects;
- Career and professional growth;
- Individual approach to work compensation based on qualifications, work results and ethics;
- 27 paid days off a year;

- Year-end bonus based on eligibility and performance;
- Professional and friendly team;
- Comfortable workplace;
- Flexible work schedule
