Опыт работы: от двух лет

График работы: полный рабочий день

Описание вакансии

Wildix is looking for a Middle QA engineer to join our team in Odessa to work on an innovative Real-Time Collaboration Platform including Audio / Video calls, Geo Location, Conferencing, and Chat

Skills and qualifications:

- QA process and types of testing understanding;
- 2+ years of experience with mobile testing (iOS and Android) and web testing;
- Understanding concepts of web applications (Front End, Back End);
- Experience with Web and API testing;
- Good test cases & bugs descriptions writing skills;
- Linux knowledge (user / confident user);
- English at least pre-intermediate level.

A big plus, but not required:

- Knowledge of test case management and bug tracking systems;
- Basic knowledge of SIP protocol;
- Experience with version control systems, e.g. Git.

Responsibilities:

- Work in a team of Manual and Automation QA Engineers;
- Perform functional & regression testing;
- Test data and test environment preparations;
- Test cases and Test plans creation;
- Continuous learning of new tools, approaches, and frameworks.

We offer:

- Opportunity to work in a young multinational team of professionals
- Paid lunch and vacations;
- Flexible full-time work from 10 am to 7 pm with one hour of lunch break (23 pm);
- Work from home up to 40% of the time;
- English training;
- Development training;
- Office in the center with good transport connections.
