Описание вакансии

An international ISV company, headquartered in NC (US), is looking for a remote software developer in Ukraine.

Duties and responsibilities

- Running/use, maintenance, and development of tests (scripts and applications) for non-visual components and libraries mostly on Windows, but also on other platforms, mainly Linux and macOS
- Testing, reproduction, and (where possible) resolution of issues that customers have with the products (kernel-mode drivers or user-mode modules)

Requirements

- Solid practical experience with C# and .NET Framework is a must
- Knowledge of Windows API is very welcome
- Experience with C++ would be great. Other popular languages (Java, Python, Delphi) would be beneficial as well
- General knowledge of IT infrastructure and virtualization platforms (VMWare Workstation, Hyper-V)

Working conditions

- A service contract with the UK branch
- Compensation includes a monthly salary (payment interval is negotiable to accommodate to Ukrainian laws) and a yearly bonus
- Paid Time Off for sick days and vacations (two weeks + negotiable extra)
- Flexible daily and weekly schedule
- Friendly and helpful environment, both remote and local in Ukraine
- Visits to the US headquarters are possible after the covid restrictions are lifted

Compensation

- Starting from 2700 USD/mo, everything above is subject to negotiations
