📍 Киев,

Компания: Allied Bits

Рубрики: IT, WEB
специалисты

Пожелания к сотруднику

Образование:	не имеет значения
Опыт работы:	от двух лет
График работы:	свободный график работы

Описание вакансии

An international ISV company headquartered in NC (US) is looking for a remote software developer in Ukraine.

Duties and responsibilities:

- Maintenance and development of security- and networking-related non-visual components and libraries (mostly on Windows, but also on other popular platforms)
- Testing, reproduction, and (where possible) resolution of issues that customers have with the products

Requirements:

- Practical experience with C++ and Java, as well as knowledge of Windows API and Java class library is a must. Will consider a student with good knowledge of the mentioned languages and APIs.
- Experience with C# and .NET Framework would be great. Other popular languages (Python, Delphi, Go) would be beneficial as well
- General knowledge of IT infrastructure and virtualization platforms (VMWare Workstation, Hyper-V)
- Solid knowledge of English, enabling communication with the English-speaking colleagues

Working conditions:

- A service contract with the UK branch
- Compensation includes a monthly salary (payment interval is negotiable to accommodate to Ukrainian laws) and a yearly bonus
- Paid Time Off for vacations and sick days (10 working days + negotiable extra)
- Flexible daily and weekly schedule
- Friendly and helpful environment, both remote and local in Ukraine
- Visits to the US headquarters are possible after the covid restrictions are lifted

Compensation:

- Starting from 2900 USD/mo, everything above is subject to negotiations
