График работы: полный рабочий день

Описание вакансии

Below is the ambition & challenge for YOU

The baseline: zero legacy, competitive salary, friendly team & professional management.

The Project – S1MPL (Segment of One Management Platform)

The new breed of DMP class (Data Management Platform) system.

SaaS S1MPL is a massive automated & data-driven marketing solution, enabling the easy market-wide deployment of marketing campaigns of Merchants and Banks across the consumer lifecycle using a variety of data science tools.

Office location - Kyiv, metro station Pecherska

Office 70% / Remote 30%

Tech stack

Backend:

- Databases (optimally PostgreSQL)
- ASP.NET Core (WebAPI)
- Writing asynchronous code
- Git

Frontend:

- HTML/CSS/JS/TypeScript
- ReactJS

NICE to Know and to DO

Docker, Docker Swarm/Kubernetes, ClickHouse, Spark (Python/Scala), MobX, Ant.Design

Responsibilities

- Participate in all phases of the software development life-cycle including creating technical designs, program code, test plans, and verifying test results
- Provide level of effort estimates for implementation and project plans
- Build dynamic new features across both the front-end and the back-end of the platform.

Come and get it!

- Work with best-of-breed technologies on scale
- Have fun while doing what you love as a part of a professional team
- Grow in a supportive learning atmosphere where opportunities for training and advancement are the MUST.
