График работы: полный рабочий день

Описание вакансии

Mobiwolf is looking for two qualified **iOS Developer** with strong analytical and problem solving skills. You will be a part of the team working at mobile application development projects for the UK and the USA clients.

Taking into consideration the current war state and energy crisis in Ukraine, we are forced to be as **flexible and adaptive** as we can. This is because our aim is to keep strong and guaranty in time delivery of quality service to our clients in any ways. The range of **possible extraordinary options could be as following:**

- Working mode - freelance, remote
- Working place - from home, from office, mix, outside/inside Ukraine
- Energy Equipment - UPS, inverter + accumulator, power bank, generator
- Internet - cable, mobile 4G, Starlink

Responsibilities

- Readiness to be flexible and adaptive together with us
- Delivery quality software on time and with acceptable quality
- Communicate effectively with other development team members and clients

Must have

- Good skills in **Swift**
- iOS SDK knowledge
- Experience of using XML Web-Services
- Understanding of IPhone coding best practices and limitations
- Completed mobile projects
- Using SVN, GIT
- **Intermediate English**

As plus

- Objective-C, C or C++
- Cocoa or CocoaTouch
- Knowledge in other mobile platforms
- Android development skills
- Knowledge or experience with SCRUM
- Experience in GUI design for mobile platforms
- Unit testing experience

Apply by sending your full CV with description of your completed iOS projects. Please specify your hourly rate.
