Описание вакансии

Full-time React + Django Engineer

Seeking an experienced fullstack React and Python engineer. We are a small but fast growing startup with an existing suite of SAAS AI-powered products and an engineering team of 6. The team you will be working with includes world-class technologists that have built products at AWS (Amazon Web Services), raised funds from the world's most prestigious venture capital firms, and have founded, scaled, and sold multiple companies. This is a great opportunity to learn from some of the world's best technologists.

You will be responsible for architecting, building, and ensuring stability of new and existing products and features. Existing products are AI focused CRM, chat, and business intelligence products. Work is ongoing and full-time.

To Be Hired:

- Be friendly
- Pass a short paired programming interview
- Have sufficient English skills to read documents in English

Role Details:

- \$30 to \$40 USD per hour
- Sizable equity — \$50,000 to \$100,000 USD
- Promotion reviews happen every 6 months

Tech Stack:

- Typescript, React JS, Django, Python, AWS

Our benefits:

- Fashionable office in the downtown
- Payments directly to your bank account
- Long-term employer-employee partnership
- Paid vacation and holidays
- Help with relocation to Kiev and/or signing bonus
