Описание вакансии

Who we are? Si-eCommerce is the first company in Central and Eastern Europe to obtain Hybris service and sales authorization. We are a silver partner of SAP.

We implement the SAP Commerce, SAP ERP, and SAP CRM platform for leading companies on the Polish and global market in the following sectors: Retail, Telco, B2B, Utilities, and others.

We have a flexible approach to the needs of our coworkers: you decide what hours you work, what form of employment you choose, whether you work from the office or remotely! Our offices are located in Katowice, Wrocław, and Warsaw.

According to our internal research, employees value work in Si-eCommerce for: a friendly atmosphere, real impact on the project, task-related working time, and team support. 100% of our employees would recommend working in Si-eCommerce to a friend!

Technology Stack: Java, GIT, Angular, SOLR, JUnit, Spock

Working time distribution: 70% New functionalities | 10% Maintaining and fixing bugs | 10% documentation | 10% meetings and development

Our projects concern, among others:

Implementation of SAP Customer Experience, SAP Commerce Cloud, and SAP Sales Cloud for e-commerce management and customer relationship management. Creating a coherent work environment for the marketing and sales team.

Implementation and development of the SAP Commerce Cloud platform for a pharmaceutical company and its connection with purchasing, payment, and logistics portals. Integration with ERP system using SCPI.

Tasks in this position:

- Implementation of new functionalities in SAP commerce,
- Maintaining and developing the current project
- Supporting the QA team and sales

Whom are we looking for? Person who:

- Has to experience in working as a Java Developer, preferably in e-commerce projects,
- Good knowledge of algorithms and data structures,
- Has experience in using GIT,
- Knows how to create scalable server applications,
- **Good if you know:** Angular, SOLR

What can we offer you ?:

- **Help in relocating and finding a place to live in Poland for you and your family**
- Employment contract or B2B
- Task-based working time and flexible hours
- Remote or office work in one of our locations: Katowice, Wrocław, Warsaw
- Flat structure and small project teams (1-10) with Java Developers, Frontend Developers, Project Managers, QA.

- Co-financing for the MultiSport card, life insurance, and medical care
- Integration events and trips

What does the recruitment process look like?:

- A short telephone or online conversation with the HR department to verify your expectations, availability, and fit with our team.
- Remote technical conversation with one of our Senior Developers.
- Employment decision.
