График работы: удаленная работа

Описание вакансии

Вимоги, побажання:

- Solid practical experience with C++, C#, and Java, as well as knowledge of the corresponding APIs and frameworks, is a must
- Experience with other popular languages (Python, Delphi, Go) would be beneficial as well
- General knowledge of IT infrastructure and virtualization platforms (VMWare Workstation, Hyper-V)
- Good knowledge of English, enabling communication with the English-speaking colleagues

Обов'язки:

- Maintenance and development of security- and networking-related non-visual components and libraries (mostly on Windows, but also on other popular platforms)
- Testing, reproduction, and (where possible) resolution of issues that customers have with the products

Умови:

Working conditions:

- A service contract with the UK branch
- Compensation includes a monthly salary (payment interval is negotiable to accommodate to Ukrainian laws) and a yearly bonus
- Paid Time Off for vacations and sick days (10 working days + negotiable extra)
- Flexible daily and weekly schedule
- Friendly and helpful environment, both remote and local in Ukraine
- Visits to the US headquarters are possible in the future

Compensation:

- Starting from 4000 US/mo, everything above is subject to negotiations
