Опыт работы: от года

Описание вакансии

Founded in 2004, Diatom Enterprises is a web design and development company that combines strategic thinking with a passion for technology to advance our client's purpose. We bring together a diverse team of creative and technical professionals who partner with our clients to create their digital strategies. It's our people-first approach that drives us to win awards, work with prestigious clients, and break ground with exciting technology.

For this project, we are looking for an Elixir Developer to join our team on a part-time basis.

PROJECT DESCRIPTION:

- eLearning System (U.S. High Schools and Colleges);
- AI elements.

WHAT YOU'LL BE DOING:

- Communicating with customers;
- Developing UI components library;
- Completing low-level design to create functionality to meet requirements;
- Developing and maintaining code to a high standard;
- Developing software by using SOLID principles.

APPLY FOR THIS JOB IF YOU HAVE:

- Working experience with Elixir – a must;
- Experience with AWS Cloud;
- A familiarity with WEB technologies: JavaScript (React/Angular/TypeScript), HTML5, CSS;
- Experience with Git, Agile;
- Good command of the English language.

NICE TO HAVE:

- Familiarity with the Heroku Cloud platform;
- Working experience with ReactJS and its main fundamentals like JSX, Virtual DOM, and component lifecycle;
- Working experience with TypeScript and JavaScript, object models, DOM manipulation and event handlers, data structures, and algorithms.

WHY YOU'LL LIKE THE JOB:

- 100% remote or on-site full-time position;
- Competitive compensation;
- Great team.

Diatom is proud to be an equal opportunity employer. We are committed to building a team that represents and respects diverse backgrounds, perspectives, and skillsets. All qualified candidates that share Diatom's core values are strongly encouraged to apply.
