Опыт работы: не требуется

График работы: удаленная работа

Описание вакансии

We are looking for a young enthusiast with a desire to learn and experience in Adobe After Effects, Photoshop, Illustrator and Design. We don't need diplomas. We really don't care. We need someone who can think creatively and bring ideas to life. As we are a young and growing organization working mainly in the field of design, our role will include creative design for various brands, involvement in concept development and conceptualization of artworks. We look forward to long-term commitments and, in turn, promise that candidates will learn beyond their imaginations.

Software requirements: Illustrator, Photoshop, XD and Indesign.

Monday to Friday 09:30 to 18:30 IST.

Responsibilities include: conceptualizing visuals based on requirements, creating images and mockups by hand or using design software, testing graphics on various media, working on branding (logo and packaging design), developing illustrations and designs for UI/ UX
