Описание вакансии

Вимоги, побажання:

Solve.Care is building a global healthcare platform that allows for rapid configuration and deployment of digital health networks and based on a decentralized node/container architecture that is fully encapsulated, autonomous, encrypted and adapts to the role of the network participant.

Currently, we are hiring a Delivery Manager who will play a key role in managing client relationships, developing new business and leading product delivery teams.

Responsibilities and Accountabilities:

- Supporting new business pursuits via proposals, RFPs, pitch meetings, etc.
- Building strong client relationships to identify and secure new projects with existing accounts
- Ensuring client relationship and project success through strong delivery focus
- Planning and managing project deliverables at the strategic and tactical levels
- Providing strategic vision, guidance and recommendations based on business and technical drivers
- Managing relationships with team and clients ensuring a high degree of engagement resulting in a shared understanding of strategy, implementation and delivery realities
- Collaborating with technical leads to ensure successful delivery of development scope and goals
- Balancing and satisfying the needs of business, end user and technical stakeholders ensuring alternatives have been investigated and there is an understanding of implementation tradeoffs
- Guiding the development process and creating a high functioning team
- Managing and reporting on project timelines, deliverables and budgets

'Must Have' Skills/Experience:

- 5+ years relevant hands-on experience managing custom software projects
- Experienced application development manager with healthcare domain (HL7/FHIR/EDI/EMR/eRx), development management using application development lifecycle (SDLC/ADLC), resource management and client facing skills.
- Hands on python, Json and contribute on authoring process as an individual contributor.
- Proven client-facing, partnership and presentation skills
- Proven sales/pre-sales and/or consultant experience for software development solutions

Qualification:

- Bachelor's Degree in Computer Science or equivalent education/experience.

Kindly submit your resume/CV through the link below. Applications sent through other channels will not be considered for review.
