Описание вакансии

We are looking for a talented and experienced **Python Developer** to join our creative team and contribute to the development of cutting-edge solutions that align with our commitment to excellence.

Requirements:

- 4+ years of commercial experience as a Python Developer
- Experience with at least one of the relevant frameworks (Django, Flask, etc.)
- Experience with database systems such as MySQL, PostgreSQL, or MongoDB
- Knowledge of version control systems (e.g., Git).
- Strong understanding of software development principles and best practices
- Advanced English level
- Excellent problem-solving and communication skills.
- Ability to work both independently and collaboratively in a team environment.

Responsibilities:

- Collaborate with the development team to design and implement high-quality software solutions using Python
- Participate in all phases of the software development life cycle, including requirements gathering, design, coding, testing, and deployment
- Debug, troubleshoot, and optimize application code to ensure performance and reliability
- Work closely with other teams, such as product management and quality assurance, to deliver high-quality software solutions
- Stay up-to-date with the latest trends and best practices in Python development

What we offer:

- Remote job with the freedom to work from anywhere in the world.
- Flexible work schedule tailored to your life and work needs.
- Competitive and timely salary.
- Opportunities for professional growth and development.
- The chance to gain experience in various fields and participate in exciting projects.
