Описание вакансии

Sempico Solutions is an innovative international company that provides SMS marketing, verification, OTP, and OTT notification services, as well as proprietary software. Our services are used by hundreds of telecommunications companies and thousands of retail customers worldwide.
Requirements

To get a good position, a specialist must have:

1. From a half years of experience in one such as PHPv8+ (Laravel, Yii2)
2. Must have at least 1+ years of experience in Vue.js with Pinia and Router
3. Experience in RESTAPI (writing own api or writing integrations with external api)
4. Coding principles: OOP, MVC, HTTP protocol, RESTful services
5. Knowledge of the technologies of:
    1. Git
    2. Nginx
    3. Linux
    4. Unit testing
    5. MySQL
6. Will be a plus: Redis, MariaDB, PostgreSQL, Telegram/MetaAPI, Tailwind CSS, Docker, experience in high-load systems, Agile

Roles and responsibilities

1. Rebuild the platform from Yii with native PHP to Vue.js
2. Writing quality code that is scalable, flexible, reusable, and testable.
3. Improve and support the code.
4. Libraries implementation
5. Write front-end part on Vue.js with back-end on current Yii2 project

What we offer:

- **Flexible Remote Work:** Enjoy the convenience of working from home.
- **Convenient Schedule:** Monday to Friday,
- 9:00 AM to 6:00 PM, with a 1-hour lunch break.
- **Competitive Salary:** We value your contributions and ensure they’re rewarded.
- **Smooth Onboarding:** Gradual adaptation to the role to help you settle in comfortably.
- **Company-Sponsored Internship:** Gain valuable experience without additional costs.
- **Career Growth Opportunities:** Unlock your potential with us.
- **English Language Development:** Improve your skills with our support.
- **Collaborative Team:** Work alongside responsible, progressive, and friendly colleagues who value humor and innovation.
- **Casual Atmosphere:** No formalities here — we’re all on a first-name basis!

Personal Skills

The range of requirements for a specialist is not limited to technical PHP developer skills. Employers also want the candidate to have:

1. Ability to solve complex problems
2. Organization
3. Ambition

To get the job you want, you must have all of the above skills.

We are looking for talented individuals who are ready to take non-trivial tasks and willing to constantly work on the improvement of their skills.

Про компанію sempico.solutionsSempico Solutions is an innovative international company providing SMS marketing, verification, OTP and OTT notification services, as well as proprietary software.
