График работы:	полный рабочий день

Описание вакансии

Hi! We're currently looking for a Senior Full stack Software Engineer to join our team. As a Senior Full Stack Engineer, you'd be responsible for designing and developing front-end web architecture, ensuring the responsiveness of our US client's platform, and working closely with their Product Manager, developers, and designers. You'll be involved in projects from conception to final implementation, requiring both strong organizational skills and a keen eye for detail.

Tech Stack & Skills We Value:

Next.js & React

Node.js, Vercel & GraphQL

Strong knowledge of front-end best practices (HTML/CSS, JavaScript, MobX)

Experience with headless CMS

Familiarity with FFMPEG

Experience with Open AI integrations is a plus

Experience working with distributed systems and AWS services (Lambda, Step Functions, SQS)

Ability to partially operate during US time zone hours (work hours according to UTC: 12:00-20:00)

This is a great opportunity to work on a scalable, high-impact product in a collaborative and forward-thinking environment. If you're interested, I'd love to set up a quick call to discuss this in more detail. Let me know what works best for you!

Looking forward to your response.
