Пожелания к сотруднику

Образование:	полное высшее
Опыт работы:	от двух лет
График работы:	полный рабочий день

Описание вакансии

We are looking for a React Native / Node.js Developer with experience in system design and cloud infrastructure to join our team. In this role, you will build and optimize mobile applications using React Native while also contributing to backend development with Node.js.

Responsibilities:

- Develop and maintain React Native applications for iOS and Android.

- Implement and optimize backend services using Node.js.

- Collaborate with cross-functional teams to define and implement new features.

- Ensure code quality through best practices, testing, and code reviews.

Requirements:

- Proficiency in React Native and Expo for cross-platform mobile development.

-Strong knowledge of Node.js and backend development best practices.

- Experience with React Native CLI and Expo for app builds.

- Familiarity with RESTful APIs, WebSockets, and authentication mechanisms (OAuth, JWT).

- Experience working with databases (PostgreSQL, MySQL, MongoDB, or DynamoDB).

- Knowledge of CI/CD pipelines.

- Understanding of mobile performance optimization and debugging tools.

- Strong problem-solving skills and the ability to work independently or in a team.

Nice to Have:

- Preferably, hands-on experience integrating native modules on iOS and Android.

- Experience working with device subsystems like video, Bluetooth, and other hardware components will be a plus.

- Experience with React

What We Offer:

- Competitive salary and flexible work environment.

- Opportunity to work with modern technologies and scalable architectures.

- Professional growth and learning opportunities.

- Collaborative and innovative team culture.
