Описание вакансии

We are seeking a Graphic Designer with hands-on experience using AI-driven design tools to join our creative team in Gibraltar. Supporting an Ontario-facing online gaming brand, this role reports to the Senior Brand Manager and plays a key role in delivering fast, engaging, and visually impactful assets across casino, sports, CRM, and marketing.

Job Description:

- Lead the creation of visual assets for web, mobile, CRM, and social channels — including banners, animations, game tiles, and campaign creatives.
- Use AI-powered design tools (e.g. Midjourney, Adobe Firefly, DALL·E, Runway ML) to generate concepts, iterate fast, and scale visual output.
- Collaborate with Product, CRM, and Marketing teams to deliver high-performing creatives tailored to specific campaign objectives.
- Support rapid content creation and localisation through AI-enhanced workflows.
- Maintain visual consistency and alignment with brand identity while pushing boundaries with innovative and dynamic designs.
- Contribute to UI/UX improvements through visually optimised onsite elements and player journeys.
- Participate in concept development for promotions, landing pages, and video/motion assets — using AI to prototype and ideate faster.
- Stay up to date with the latest in AI design tech and recommend new tools or approaches to increase team efficiency.
- Assist with competitor creative research and trend analysis to keep the brand visually ahead of the curve.

Requirements:

- 2+ years of graphic design experience in a digital environment; iGaming, entertainment, or high-volume consumer brands preferred.
- Strong portfolio showing mastery of design tools including Adobe Creative Suite (Photoshop, Illustrator, After Effects) and AI design platforms (e.g. Midjourney, Firefly, DALL·E, Runway ML, etc.).
- Demonstrated ability to integrate AI-generated visuals into brand-safe, polished final designs.
- Solid understanding of layout, typography, motion, and responsive design.
- Proactive, highly organised, and comfortable managing multiple projects with tight deadlines.
- A passion for innovation and a “design first, iterate fast” mindset.
- Experience in video editing, 3D, or animation is a plus.
