Описание вакансии

Job Title: Backend Developer

Company: Sky 360 LTD

Industry: Technology

Seniority Level: Middle

Job Description:

We are seeking a talented Backend Developer to join our client's team. In this role, you will be responsible for developing robust backend systems, ensuring high performance and responsiveness to requests from the front end. You will collaborate with product managers, front-end developers, and other stakeholders to deliver high-quality software solutions.

Key Responsibilities:

- Design and implement server-side components and services.
- Build reusable code and libraries for future use.
- Optimize applications for maximum speed and scalability.
- Troubleshoot and resolve issues in the application.
- Collaborate with front-end developers to integrate user-facing elements with server-side logic.

Qualifications:

- Proficient in Node.js with 3 years of experience.
- Experience with Nest.js for 2 years.
- Strong problem-solving skills and the ability to work independently or as part of a team.

If you are passionate about backend software development and are interested in contributing to exciting projects, we would love to hear from you.
