Опис вакансії

Do you want to use your skills to create the best possible solutions for clients? Work with the latest technologies in close cooperation with other developers? Resultify is an award-winning Swedish based company looking for an experienced developer to contribute to bringing our solutions into the future.

We are looking for someone who have some experience of, or are dying to try, building the best possible web applications where quality, performance and challenging complexity are core features. We are looking for someone with passion and interest in trying new technologies, have a great spirit and the power to execute tasks.

Requirements

- You need to have at least 1 year professional experience of PHP
- Experience or strong understanding of DDD, ORM and Doctrine
- Strong understanding of relation databases
- Strong understanding of working with SQL databases
- Be able to work with GIT workflows and Composer
- Be able to detect, analyze and solve problems
- Knows how to code elegantly and according to standards
- Attention to detail
- Speaks Test Driven Development (TDD) fluently
- Strong English is required, all communication is in English
- Team player

Nice to have

- Understanding of ajax driven user interface design using for example Angular
- Experience of CMS (Wordpress, TYPO3 or similar) development
- Experience working with APIs delivering analytical data

We have English courses, medical insurance and pay off sports expenses. You will be part of a professional team with high ambitions where camaraderie is the foundation for our journey ahead!

Culture diversity, open-minded people and family-like atmosphere. The big experienced team which is eager to help at any time. Interesting tasks and feeling of doing something really important, even if it not always like that.
