Опис вакансії

We are looking for a **Junior DevOps** to become a member of our production team. You are going to configure and automate services for production environments, monitor and maintain productivity of software in production and find ways to improve it. You will be mentored by our top technical leads and therefore you must be hungry for knowledge and be a quick learner.

Required skills:

Experience in current subjects is not required, but knowledge and understanding of them is necessary.

- Knowledge in building, testing and installing software
- Knowledge of how to work with virtualization systems
- Knowledge in configuration of web servers
- Knowledge in configuration of monitoring tools
- Knowledge in troubleshooting problems in operating systems and services
- Knowledge of writing scripts
- SQL
- The ability to conduct research and analysis
- Intermediate level of English (read, write)

Will be an advantage:

- Virtualization technologies (VMware)
- Web servers (OpenResty)
- Load balancing (nginx, HAProxy)
- Monitoring tools (Zabbix, Grafana, etc.)
- Experience in SQL (MySQL, Postgres, GreenPlum, etc.)
- VCS - Git (GitLab)
- Experience with CI/CD systems (Jenkins, TeamCity, Rundeck, etc...)
- Experience in using logging and metric collection systems

Responsibilities:

- Configuration and fine-tuning of reporting, data routing and data mapping systems
- Configuration of campaigns and business rules
- Monitoring and analyzing of data events and software productivity
- Technical research of competitors
- Maintenance of products in production (DB, logs, etc.)
- Automation of everyday tasks by writing scripts and using of services

Our benefits:

- Work in a modern and continuously growing company
- Convenient location near Poznyaki metro station
- Food in the office limitless - own chef
- A subscription to the SportLife, including a swimming pool
- Medical insurance - the best clinics "Dobrobut" and "Boris"
- Annual vacation of 24 calendar days

- Young and friendly team of professionals

Please send us your CV with the desired salary.
