Java Engineer Trainee

📍 Харків,

Рубрики: [IT, WEB фахівці](#)

Побажання до співробітника

Досвід роботи:	не вимагається
Графік роботи:	повний робочий день

Опис вакансії

We invite novice Java developers to take part in the trainee program of DataArt. The goal of this program is to bring specialists to a level that will allow them to work independently on IT projects. Under the guidance of an experienced supervisor, a trainee will solve problems in real projects. If at the end of the test period a trainee reaches the required professional level, he or she will receive a Junior Java Engineer qualification and will continue to work in DataArt full time.

Required Skills and Experience:

- Basic knowledge of object-oriented programming;
- Knowledge of Java SE (Collections, Multithreading, Exception Handling, JDBC);
- Basic knowledge of the HTTP protocol (methods, status codes);
- Basic knowledge of HTML, XML, CSS.

Additional Competences:

- Basic knowledge of design patterns: Singleton, Abstract Factory, Factory Method, Builder, IoC, etc.;
- Knowledge of and experience working with popular frameworks: Spring, Hibernate, etc.;
- Basic understanding of microservice architectures.

DataArt offers:

• Professional Development:

— Experienced colleagues who are ready to share knowledge;

— The ability to switch projects, technology stacks, try yourself in different roles;

— More than 150 workplaces for advanced training;

— Study and practice of English: courses and communication with colleagues and clients from different countries;

— Support of speakers who make presentations at conferences and meetings of technology communities.

• The ability to focus on your work: a lack of bureaucracy and micromanagement, and convenient corporate services;

• Friendly atmosphere, concern for the comfort of specialists;

• Flexible schedule and the ability to work remotely;

• The ability to work in any of our development centers.
