| Освіта:        | середня             |
| Досвід роботи: | від двох років      |
| Графік роботи: | повний робочий день |

## Опис вакансії

### Project description:

We are looking for a JavaScript Developer who is ready to be involved into challenging tasks and wants to work on interesting projects from different business areas with a wide range of technologies.

Projects we work on include (but are not limited to) building UI for medical software using Angular.js, various cross-platform mobile apps, large POS platform for quick service restaurants and retail domains. Depending on your preferences and skills, we will discuss available projects in order to get the best consilience.

Technologies we use on our projects include: AngularJS (1 and 2), ReactJS, Vue.js, Node.js, Ionic/PhoneGap, Webpack.

### Role description:

- You will have a possibility to estimate and develop projects using your experience and best practices.
- Perform code review and communicate with teammates and clients.
- You are expected to look at project needs with a critical eye, willing to use the best development approach.

### Required skills:

- JavaScript basics (AJAX, closures, prototypical inheritance, etc.)
- jQuery
- Experience with MVC frameworks (AngularJS, ReactJS, VueJS, KnockoutJS, BackboneJS, etc)
- HTML5, CSS3, SASS (will be a plus)
- Familiarity with Chrome dev tools, the capability to debug code, check local storage, etc.
- Gulp/Grunt, Bower
- Git
- Good written and verbal English

### Desired skills:

- Intermediate English and higher

- Experience with Cordova/PhoneGap will be a plus
