**Опис вакансії**

CoreValue, a fast-growing IT-outsourcing company based in Ukraine, is looking for a**Middle SharePoint Developer** for **Lviv**office.

We are seeking an energetic person with strong technical and consulting background and expect the successful candidate to demonstrate high motivation and ability to solve complex problems and achieve set goals.

**Responsibilities:**

- Design, develop, test, and deploy SharePoint Server 2013 farm solutions, sandbox solutions, and SharePoint Add-ins in an on premise environment;
- Design, develop, test, and deploy visual web parts, custom workflows, InfoPath forms, MS Office integration components, page templates, branding customizations, and web services;
- Work closely with SharePoint development team members;
- Assist with user acceptance testing and the preparation of user manuals and training materials for SharePoint solutions;
- Assist with communication of major/minor enhancements and bug-fixes.

**Technical requirements:**

- 3+ years experience in software development with C#, Visual Studio, .NET 4.0+ Framework, ASP.NET, WCF, and WF ;
- 3+ years general web development experience with HTML (HTML4, HTML5, XHTML), JavaScript, CSS, JQuery, and AJAX;
- 2 years in developing custom farm solutions, sandbox solutions, and apps for SharePoint 2013 or SharePoint 2010;
- Understanding of SharePoint Server 2013 architecture, server-side object model, and client-side object model;
- Experience with SharePoint Designer 2013, InfoPath, and InfoPath Forms Services;
- Knowledge of Service Oriented Architectures (SOA) and REST-based web services; experience consuming web services with SharePoint;
- 2 years experience building and supporting all aspects of SharePoint including sites, site collections, master pages & templates, web parts, content types & policies, lists, libraries, workflows, forms authentication, and security groups;
- Experience evaluating and integrating 3rd party plug-ins with SharePoint;
- Understanding of the Agile software development life cycle;
- Strong problem solving skills ;
- Excellent interpersonal, verbal and written communication skills with the ability to collaborate and interact confidently with individuals at all levels; must be dedicated to a high degree of customer service with the ability to work well in a team environment.

**Nice to have:**

- Experience with Active Directory, PowerShell and scripting languages;
- Experience with SSRS, SSIS, Power Pivot, and Power View is a plus;
- Experience in end user usability and creating functional user interfaces that improve the overall end user experience and efficiency ;
- Experience developing SharePoint 2013 Workflows with Workflow Manager;
- Experience working with Microsoft Team Foundation Server (TFS)

**We offer:**

- New office with areas for recreation, well-staffed kitchen facilities, shower, hackerspace, covered bike-parking

- Compensation of medical insurance
- Sport compensation: gym-membership reimbursement, small gym and yoga class on-site
- Language school with a native speaker
- Compensation of training: our employee can participate in training given by external and internal experts
- Paid business trips: daily and transportation expenses
- Lunch compensation and availability of snacks and dibs on-site
