About company.

Scorto is a fast growing multi-national product-oriented company planning to triple the size of its development department within the next 6 months. Our new employees will be involved in intense, but the very interesting process of new features development to bring the highest standards of financial technologies world-wide.

Scorto developers work on the next generation tools empowering innovative companies to increase financial inclusion and make credit available to ordinary people and small businesses through new generation technologies such as online lending, blockchain, social network scoring, big data, mobile scoring.

We're a fast moving, highly skilled medium-size team designing and building online and mobile lending products our customers and their borrowers love. Our system is scaling globally, highly available, and "just works". We welcome those who are willing to prove themselves within a company of talented individuals

Scorto is listed among top fintech companies; its software products won innovation awards from governments and independent experts, it has offices in 5 countries and clients in more than 40 countries worldwide with client portfolio growing from month to

month. You can expect a real investment in your professional growth, and dedication to crafting a strong, sustainable career for you. 83% of the company's managers have grown inside the company.
