# QA Trainee, Media Practice

📍 Харків,

Рубрики: [IT, WEB](#)  
[фахівці](#)

## Побажання до співробітника

Освіта:	повна вища
Досвід роботи:	не вимагається
Графік роботи:	повний робочий день

## Опис вакансії

We invite novice testers to take part in the trainee program of DataArt. The goal of this program is to bring specialists to a level that will allow them to work independently on IT projects. Under the guidance of an experienced supervisor, a trainee will solve problems in real projects. In one of them we are working with systems of a musical conglomerate that unites dozens of once independent labels. In another one – we are helping to create a system for assessing the success of printed products. Both projects are connected with the media market.

If at the end of the test period a trainee will reach the required professional level, then they will receive a Junior QA Engineer qualification and will continue to work in DataArt full time.

## Required Skills and Experience:

- Basic knowledge of manual and automated testing (types of tests, methodologies of organizing testing processes);
- Knowledge and skills of development (OOP, programming languages);
- Basic knowledge of databases and skills working with at least one of database management systems (one of the following: MSSQL, Oracle, MySQL, PostgreSQL, etc.);
- Good spoken English.

## DataArt offers:

- Professional Development:
  - Experienced colleagues who are ready to share knowledge;
  - The ability to switch projects, technology stacks, try yourself in different roles;
  - More than 150 workplaces for advanced training;
  - Study and practice of English: courses and communication with colleagues and clients from different countries;
  - Support of speakers who make presentations at conferences and meetings of technology communities.
- The ability to focus on your work: a lack of bureaucracy and micromanagement, and convenient corporate services;
- Friendly atmosphere, concern for the comfort of specialists;
- Flexible schedule and the ability to work remotely;
- The ability to work in any of our development centers.
