Опис вакансії

Our client creates solutions for electronic data capture (EDC) for clinical trials. These solutions are used by private researchers as well as large laboratories for managing and analyzing information.

DataArt specialists will help the company to improve the existing service. This service must be properly integrated with all the systems currently worked with by the client's users.

Required Skills and Experience

- Understanding of and experience working with C# (including the latest versions of ASP.NET MVC framework);
- Experience designing software;
- Knowledge of OOP, OOD and design patterns;
- 2+ years of developing commercial .NET-based applications.;
- Experience working with the MS SQL Server data management system and its components (SSRS, SSIS);
- Solid knowledge of SQL, TSQL, SSRS;
- Experience using TDD methodologies;
- Good spoken English

Additional Competences

- Understanding of Agile methodologies' development;
- Experience of Scrum-based teamwork;
- Microsoft certification;
- Knowledge of Windows Forms.

DataArt offers:

Professional Development:

- Experienced colleagues who are ready to share knowledge;
- The ability to switch projects, technology stacks, try yourself in different roles;
- More than 150 workplaces for advanced training;
- Study and practice of English: courses and communication with colleagues and clients from different countries;
- Support of speakers who make presentations at conferences and meetings of technology communities.

The ability to focus on your work: a lack of bureaucracy and micromanagement, and convenient corporate services;

Friendly atmosphere, concern for the comfort of specialists;

Flexible schedule (there are core mandatory hours), the ability to work remotely upon agreement with colleagues;

The ability to work in any of our development centers.
