Опис вакансії

UKEESS Software House is currently looking for **ambitious Middle Java Developer** to join our team **for the full-time position in Lviv**, Ukraine to join ambitious projects and company.

About Client:

The Client is the world's largest online resource for family history and largest DNA network in the world is helping more people find the singular story in their DNA. The foundation of service is an extensive collection of billions of historical records that have been digitized, indexed and put online over the past 19 years. These digital records and documents, combined with proprietary online search technologies, tools and collaboration features, have enabled more than two million subscribers to create over 16 billion historical records, along with millions of DNA results to make meaningful discoveries about the lives of their ancestors.

Technology stack: Java/MySQL/AWS

Requirements:

- 3+ years experience in software development/1+ in Java
- Strong knowledge of Java 7/8, OOP, design patterns, MySQL or SQL Server
